VOLUME XVI

COLUMBIA, ADAIR COUNTY, KENTUCKY, WEDNESDAY MAY 28, 1913.

NUMBER 30

Mrs. Victoria Garnett.

Last Tuesday, just before this paper went to press, the subject of this writing, in the presence of loved ones, crossed over the dark river and was at rest with the God she had faithfully served for many years. She was a daughter of Edmund T. and Nancy Willis, and was born and reared in the Zion community, and from early in life was a lady highly respected for her many Christian virtues. We can not recall the name of a lady who was more widely known than Mrs. Victoria Garnett. A woman of strong character, her advice was sought by the young people, profit resulting, as her admonitions at all times contained good and wholesome teachings.

When quite a young woman she was married to Wm. H. Garnett, who was a brother of the late Judge James Garnett, and who was a prominent citizen of this county. To them a family of three children were born, J. E. Garnett, who is in the West, W. A. Garnett, and Mrs. Ella Scott, the two latter being at the bedside when the end came.

We have already spoken of the goodness of this excellent lady, but to show her tenderness even to a person who was not the remotest akin, we have only to relate her interest shown in Will Judd, who lived in her home for nine years, and who was cared for as one of the family; and her passing lost the best friend the young man ever had. His every wish was gratified, the deceased longing to see him grow and become a useful man in the affairs of the world.

Mrs. Garnett was born September 17, 1844, making her a little over sixty-eight years old when death came. When quite a young woman she made a profession of her faith in Christ, united with the Baptist Church, living a devoted member until the final dissolution.

The funeral services were held Wednesday forenoon, conducted by Rev. O. P. Bush, at the residence of Mr. W. A. Garnett, the deceased old home, in the presence of a large circle of relatives and friends. At the conclusion all that was mortal of this good woman was laid to rest in the family burying ground.

Besides the children mentioned above, the deceased is survived by two brothers, H. P. and Anthony Willis, and two sisters, Miss Harriet Willis and Mrs. Caroline Jeffries, several grand children and number of nieces and nephews.

The survivors have been left a priceless heritage—a good name; and to again see and know the departed, godly lives must be lived.

An Arm Broken.

Mr. Charles Stewart and wife, of San Francisco, Cal., who visited their aunt, Miss Sallie Stewart, this place, last summer, are now at their California home. On leaving here they went to Washington, D. C., where they spent a week or two with Mr. Stewart's brother, Mr. Wm. Stewart, and family, and thence to Europe. They returned to the States a few weeks ago, and while enroute to San Francisco, they were in a railroad wreck, near Dayton, Ohio, Mr. Stewart getting one of his arms broken. It was set by a local physician, but he did not do his work as it should have been, and when Mr. Stewart reached California it had to be reset. A letter to Miss Sallie Stewart, received several days ago, states that he is doing nicely.

How to Collect Accounts.

We collect notes and accounts and look after claims anywhere in the United States and make no charges unless we collect.

Ad. May's Collection Agency, Somerset, Ky.

The general rains of last week put a smile on the faces of all farmers, and the people generally rejoiced with the tillers of the soil. Tobacco growers got busy and many crops were set.

Mr. John W. Sumner, thirty years old, died in the Pollard Chapel neighborhood last Friday. He was a victim of Bright's disease.

Buggies, Wagons, all kinds of farming tools at the store of J. H. Phelps, Jamestown, Ky.

Circuit court will probably continue through this week, as there are cases set for Thursday.

When in Jamestown and needing anything in the way of machinery on your farm, enter J. H. Phelps' store.

Certificates Awarded.

The Board of Examiners finished their labors last Thursday forenoon and the following first-class and second class certificates were awarded. There were several third-class certificates awarded, but the names of the teachers were not handed in. There were fifteen failures. Those receiving certificates follow:

First-class—Loracy Wolford, Gertie Walker, Darrell Strange.

Second-class—James Hayes, Stella Garnett, Mamie Smith, Mary Young, Sam L. Gaskins, W. S. Sinclair, Simon Finn, Albyrtie Farris, Joseph Pierce, Elva Jones, Mattie Garnett, R. T. Hadley, Claudie Goode, D. E. Sanders, Azro Hadley.

Youtsey Wants Parole.

The State Prison Commission will hear on June 4 an application for the parole of Henry E. Youtsey, serving a life sentence for alleged participation in the assassination of William Goebel. L. J. Crawford, brother-in-law of Youtsey, accompanied by Judge J. H. Hazelrigg, called on the commission and presented the application.

Buck and Mack Ewing and Will Frazer, all colored, got into a difficulty out on the pike, a few nights ago. Will was stabbed twice, but not dangerously. All three occupy the same building, Will having a grocery store in front and the Ewing boys a barber shop in the back room, and they fell out about the payment of the rent.

For Sale.

Three nice cottages, two with six rooms each, one with three rooms, good water and out buildings, lots adjoin. The rental value pays taxes, insurance and interest on \$4,000.

Commencement Exercises, Graded School.

The closing exercises of the Graded and High School began on Sunday night, May 18, with the baccalaureate sermon by the Rev. J. N. Crawford at the Presbyterian church. The speaker's remarks were confined with particular reference to the graduating class, but were inspiring to the entire audience as well. His thoughts were practical to every school boy and girl present and he had their attention at all times. Tuesday afternoon the annual Class Day exercises were held on the school grounds in the open air. The program consisted principally of the Class Prophecy by Miss Avis Tupman; Class History—Miss Leonora Lowe; Knocks—Miss Nell Tarter; and Class Will—Miss Mary Williams. The musical part of the program was also rendered by the four young lady graduates. Among the numbers was "Die Loreli," a quartette sung in German. On the whole it was a most interesting program.

Tuesday evening was given over to a reception to the High School pupils in honor of the graduates.

Wednesday morning at 9 o'clock a unique little play entitled "Bibi" was given by the pupils of the primary and intermediate grades. It was a story of Gluepot's Toy Shop and in spite of its nature held the attention of the grown-ups throughout. Although it was only given to the patrons of the school, standing room was at a premium and many were not permitted to see the play.

Wednesday afternoon was given over to the Track Meet and Field Day at the Fair Grounds. In spite of the threatening weather a large crowd was out and witnessed some very interesting contests. Rex Holladay won first place with four points, Edgar Diddle was a close second with three and one-fourth points. Elsewhere in this issue will be found a list of all the winners.

Although in the midst of a down-pour of rain a large audience was present at the Presbyterian Church Thursday evening at the annual graduating exercises. The theses and graduates were "Feudalism," Miss Avis Tupman; "The Art of Music," Miss Mary Williams; "The Hellene of the Past," Miss Nell Tarter; "To the Stars through Difficulties," Miss Leonora Lowe.

Contrary to usual feminine abilities on the platform each young lady read her thesis as to be distinctly heard by every one and hardly a member of the audience could tell it was raining in no small quantity.

The reaching of the papers was interspersed by a splendid vocal solo by Mrs. Sam Burdette "In the Garden of My Heart" and an excellent reading by Miss Loretta Dunbar, "The Hazing of the Valiant."

Following the theses the class address was delivered by Judge H. C. Baker. He held the undivided attention of the audience during the entire time. A splendid picture of ideal womanhood was held before the young lady graduates and discussed from a practical standpoint.

In a short, inspiring and interesting talk Mr. Turner presented the diploma to the class of four young ladies.

Notice.

The Adair County Medical Society will meet in Columbia on Thursday, June 5, 1913, where the following program will be rendered:

W. F. Cartwright—Cholera Infantum.
S. P. Miller—Disentery.
C. M. Russell—Pneumonia.
B. J. Bolin—Infantile Paralysis.
S. A. Taylor—Articular Rheumatism.

W. J. Flowers—Animal Therapy.
H. B. Simpson—Senile Grangren.
We hope for a full and interesting meeting. Let every doctor in the county be present.

U. L. Taylor, Secretary.

Lucien Brockman, who was indicted with his brother, Arthur and Silas Sullivan for removing indictments from the Russell county clerk's office, was arrested last week near Springfield, Ill. He had one of the indictments on his person. The sheriff of Russell county was notified and in a day or two Brockman will be landed in Jamestown.

Mr. Sam Burdette met with a painful accident last Friday night. He was scuffling with some young men when he got one of his ankles badly sprained. He is laid up.

The colored teachers of the county were before the Board of Examiners last Friday and Saturday.

Read the "ad" of V. Sullivan in today's paper.

Attention Tobacco Growers.

The Kentucky State Fair this year desires making the Tobacco Exhibit a very prominent feature of the big show, and asks the help of the farmers of the State in both the burley and dark sections, to assist them in so doing.

The premiums are very liberal on both old and new, burley and dark, and it would be quite easy for the farmers to prepare samples just at this time.

There are classes for all grades, bright leaf, red leaf, cigarette and trash in the burley and Austrian leaf, black wrapper, long leaf, French leaf, Italian leaf and Green River leaf in the dark type. Get your samples up now and be prepared for the big Fair in September. Should you desire any information relative to entry blanks etc., drop a line to the Secretary, J. L. Dent, Paul Jones Building, Louisville.

A Kind Hearted Tramp.

Umbrella menders, tramps and beggars are generally considered by people as belonging to one class and are as a rule shunned by the people generally. Many of them lead the life they do from desire and others from force of circumstances. That all are not altogether bad was shown a few days ago when an umbrella mender, who also sold coat-hangers, entered the Grinstead poultry house to show his grinders. Pitying the man's condition, Mr. J. M. Millen gave him a dime for which the man seemed very grateful. As he left the poultry house he met a blind-man and after gazing at him a moment, he drew from his pocket a quarter in small change and put it in his hand, saying, "Here Mister take this, you are a lot worse off than I am. I wish it was more but it's all I have."—Lebanon Falcon.

Died at Campbellsville.

Mr. Wm L. Farris, who was in his ninety-sixth year, died at Campbellsville last Saturday. The interment was near Cave Valley, this county, where the deceased lived for many years. He was a fine old gentleman, and his death brought sorrow to many homes. An honest man, a Christian in his truest sense, he passed over to the other side like a sleeping child.

Mr. Claud Pemberton, who was here last week, informed us that his father, Mr. Spot Pemberton, who was quite feeble some months ago, had about recovered, and that he was almost sure to attend our fair in August. Mr. Pemberton has many friends in Adair, all of whom will be glad to see him.

The people of Columbia and vicinity are again reminded that a series of meetings will commence at the Christian church the first Sunday in June. Eld. W. G. Montgomery will assist the pastor, and the song service will be conducted by Miss Mamie Depp, of Glasgow, who will arrive a day or two before the meeting begins, and will organize a class.

Personal

Capt. Geo. Nell is improving slowly. Attorney General Garnett has returned to Frankfort.

Master John Beard, son of Mr. and Mrs. J. P. Beard, is quite sick.

Mrs. T. E. Jeffries, who was quite sick last week, has about recovered.

Mr. J. O. Ewing, of the Burkesville bar, was here a few days of last week.

Allen, son of Mr. and Mrs. W. H. Eubank, was quite sick the first of the week.

Mr. L. R. Nunn, an attorney of Edmonton, was here a few days of last week.

Mr. Romie Judd, who teaches at Franklin, Tenn., arrived home last Friday.

Mrs. Tim B. Cravens is spending a few weeks with her parents at Thompsonville.

Miss Mollie Flowers, of Gradyville, spent last week with the Misses Moss, this city.

Mrs. Tennie Rice and little daughter, Ida Mary, are visiting Mrs. J. P. Hutchison.

Dr. R. A. Jones arrived from Cincinnati last Friday and went from here to Moutpelier.

Miss Minnie Kemp, who taught at Hardinsburg, Ky., reached home Saturday night.

Mr. Basil Richardson, a prominent lawyer of Glasgow, was here a day or two last week.

Miss Jennie Garnett, who teaches at Williamburg, Ky., reached home last Thursday night.

Mr. E. Moore, well-known fertilizer man, was here from Jamestown the first of the week.

Miss Bess Goggin, of Somerset, is the guest at the home of Lincoln Denton, this week.

Judge J. W. Kinnaird and Mr. Mose Romine, of the Edmonton bar, were here a few days of last week.

Dr. W. J. Flowers and wife will return from a visit to Mrs. Flowers' parents, Hopkinsville, this week.

Miss Rose Chewing, of F. Taylor county, is visiting at Mr. B. F. Chewing's and Mr. J. P. Hutchison's.

Dr. Jas. Triplett visited his daughter, Miss Mary, at Danville, last Friday, returning home the first of this week.

Mrs. A. A. Miller and her little son, three years old, who have been quite sick for several weeks, are rapidly improving.

Mr. and Mrs. J. S. Stultz, Campbellsville, who visited the families of Messrs. T. R. and George Stultz, have returned home.

Mr. and Mrs. J. O. Russell will leave for the Louisville market this morning. They will make the trip to and from in an automobile just purchased.

Mr. Jo N. Conover left for Monticello last Friday and will return with Mrs. Conover, who has been with her daughter, Mrs. Cosby McBeath for the past six weeks.

Mrs. Jas. S. Darnell (nee Miss Marvin Nell) is in Norton Infirmary, Louisville, having been operated on for appendicitis. Relatives here are informed that she is doing nicely.

Miss Myrtle Bird, who assisted Mrs. Lou W. Atkins in her millinery business this season, left for her home in Alabama, last week. She made many friends in Columbia during her stay.

Mrs. W. K. Azbill, Cleveland, Ohio, is still living, but she can not take food into her stomach, and there is absolutely no hope. The above information was received by Mr. Jas. T. Page.

Prof. Ivan E. McDougle, of the Graded School Faculty, leaves for his home in Richmond this week. Next September he goes to Worcester, Massachusetts, to take one year's graduate work in Clark University.

Rev. J. R. Crawford and Mrs. Crawford and their little daughter, Lena, of Winchester, visited their many Columbia friends a few days of last week. Rev. Crawford conducted prayer meeting services at the Presbyterian church Wednesday evening.

Miss Sue King, Louisville; Miss Elizabeth Drake, Bowling Green; Miss Elizabeth Farleigh, Richmond, all teachers in the Graded School last year, left for their respective homes last Saturday morning, carrying the best wishes of the people of Columbia.

Mr. J. E. Snow, Russell Springs, and Mr. John R. Luttrell, Font Hill, were here Monday.

Here and There.

Texas blackberries are ripe.

Reports indicate a fine yield of Elbertas in East Texas.

Indications are that the Kentucky crop of strawberries will be abundant.

The acreage in melons and cantalopes has been increased in Florida.

Indiana has fine prospects for apples, peaches, plums, cherries and berries.

Prospects for a good yield of fruit in several counties in Kentucky is very flattering.

The movement of Tennessee berries is on in earnest. The crop is excellent.

The Georgia melon crop is in good shape and it is now thought the yield will be larger and earlier than last year.

A Lesson in Virtue.

The shop girl may not have a comfortable home, where in safety she might meet and be properly introduced to a few available men. She may not move under the so-called "protections" of society. But she has a right to her love affairs, and she can be chaste and discreet and strong in spite of her disadvantages.

Many a carefully nurtured child, protected in her home, could learn much for her safety and happiness from the hundreds of store girls that fight so magnificently for their good times, giving young men lessons in courtesy and decency, maintaining their virtue and good names under the most trying conditions at times.—W. R. Hitchkin in the New York Times.

Best Medicine for Colds.

When a druggist recommends a remedy for colds, throat and lung troubles you can feel sure that he knows what he is talking about. C. Lowry, druggist, of Marion, Ohio, writes of Dr. King's New Discovery: "I know Dr. King's New Discovery is the best throat and lung medicine I sell. It cured my wife of a severe bronchial cold after all other remedies failed." It will do the same for you if you are suffering with a cold or any bronchial, throat or lung cough. Keep a bottle on hand all the time for everyone in the family to use. It is a home doctor. Price 50c and \$1.00. Sold and guaranteed by Paull Drug Co. Ad.

Brave Girl Saves Two.

Doris Brant, a Massachusetts girl, and only 16 years old, is to receive a medal from the Massachusetts Humane Society for saving the lives of two friends, Ruth and Hazel Bethel. The three girls had spent the summer at Lake Webster, and there Hazel had learned to swim, though she had not become very perfect in that useful art.

One day the two sisters were in the water together, when Hazel found herself sinking, and screamed to Ruth, who at once went to her assistance. But by the time of Ruth's arrival, Hazel had become so frightened as not to know what she was doing, and she grasped her sister in such a way as to make it seem probable that both would be drowned.

Doris, who was on the shore, lost no time in going to the help of the imperiled pair, though she must have realized that this was with no little danger to herself. She forced Hazel to loosen her grip on Ruth, and then told Ruth, who was almost exhausted, to swim ashore, while she herself supported the other sister. Ruth carried the alarm to the shore and in a short space of time, a rowboat came to the rescue, and Hazel and her plucky rescuer were taken to safety.

Not a Sherlock Holmes.

A police officer tells an interesting tale of an old woman he once had to deal with. A batch of bank-notes had been stolen, and the detective found someone to tell him that the old woman in question, a notorious "fence," had one of the notes, at least, at her house.

So implicitly did the detective rely upon his informer that he set aside the formality of a search warrant, and proceeded to visit the old woman's house, locked the doors on the inside, and rummaged the rooms from cellar to roof. He is an officer who prides himself on his keen scent in a search, but he was completely baffled; and after tearing up some boards and knocking down some plaster by way of making a show of doing something, while he waited for a new idea, at last he gave it up.

Turning to the woman and handing her back a candle which she had lent him to work with, he said:

"Well, this time I confess I am beaten. Tell us where it is, mother, and I'll get you off."

The promise was sufficient.

"You've had it in your hand most of the time," she said, "and gave it me back this minute. It's wrapped 'round the candle."

For the Weak and Nervous.

Tired-out, weak, nervous men and women would feel ambitious, energetic and full of life and always have a good appetite, if they would do the sensible thing for health—take Electric Bitters. Nothing better for the stomach, liver or kidneys. Thousands say they owe their lives to this wonderful home remedy. Mrs. O. Rhine-vault, of Vestal Center, N. Y., says: "I regard Electric Bitters as one of the greatest of gifts. I can never forget what it has done for me." Get a bottle yourself and see what a difference it will make in your health. Only 50c and \$1.00. Recommended by Paull Drug Co. Ad.

Living Mud.

During the rainy season in China the amount of mud in some low-lying places is appalling, it sometimes reaches four and five

feet in depth. To see wagons and people splashing through this ooze is an ugly sight.

But there's a sight more horrible still—that of living mud. As you stand on the edge of one of these awful expanses, suddenly the mud will begin to move. It rises up and down. It forms itself into strange mounds.

As you are puzzling over the strange sight, the hideous forms of dozens of large land crabs, thickly coated with black mud, will emerge near you. They toil slowly up to higher ground, and you understand that the surging of the mud is due to hundreds of these great crabs wallowing in it.

BOILING AN EGG.

If It Gives You Trouble You Might Try John Randolph's Way.

The boiling of an egg seems a simple matter, but many a breakfast has been spoiled and many a temper rased by the cook's failing to observe the precise number of minutes the process should occupy.

That very original man, John Randolph, is said to have invented a method of getting his eggs cooked exactly to his taste that worked perfectly. As is the case in many country homes in the south, the kitchen was in a separate building at some distance from the house, and servants were plenty.

When the "sage of Roanoke" took his seat at the breakfast table there was a line of servants from the dining room to the kitchen. Mrs. Randolph, the mother of the statesman, held an open watch in her hand.

"In!" exclaimed Mr. Randolph, and the word "in" was passed from mouth to mouth until it reached the waiting cook, who dropped the eggs into the pot. After the requisite number of seconds the holder of the timepiece signified that the cooking was done. "Out!" went forth the command in like manner, and the eggs were quickly removed.

The system required six or seven servants to cook one egg, but Randolph was accustomed to declare that this was the only way that he could get a cooked to suit him.—Youth's Companion.

AN INGENIOUS CLOCK.

Curious Automaton That Was Made in London a Century Ago.

One of the most wonderful timekeepers known to horologists was made in London, England, a hundred years ago and was sent by the president of the East India company as a gift to the emperor of China. The case was made in the form of a chariot, in which was seated the figure of a woman.

This figure was of pure ivory and gold, and the right hand rested upon a tiny clock, fastened to the side of the chariot. Portions of the wheels which kept track of the flight of time were hidden in the body of a tiny bird which had seemingly just alighted upon the woman's finger.

There was a canopy above, so arranged as to conceal a silver bell. The bell was fitted with a little hammer, also of silver, which, although it did not appear to have any connection with the clock, struck the hours regularly and could be made to repeat by touching a diamond on the woman's bodice.

In the chariot, at the woman's feet there was a golden figure of a dog and above were two birds, apparently flying before the chariot. This beautiful ornament was made almost entirely of gold and was elaborately adorned with precious stones.—St. Louis Globe Democrat.

Never Can Happen Again.

The Montenegrin law which ordains that any found valuable shall be placed where the loser can find it reminds one of an anecdote told of Grimaldi's grandfather in Dickens' life of the famous clown. On one of his visits to London, he found a man with nearly £400 in gold and silver upon him "he found that his shoe had become unbuckled and, taking from his pocket the bag, he placed it upon a neighboring post and then proceeded to adjust his buckle." Having afterward to pay for a purchase, he missed his bag of gold and hurried back to the post where he had buckled his shoe. "Although more than three quarters of an hour had elapsed, there it remained, safe and untouched on the top of a post in the open street." That was in eighteenth century London. Could it happen now?—London Chronicle.

A Curious Coincidence.

The story of a queer coincidence was told by Sir Arthur Conan Doyle. While traveling upon the continent he visited a certain mountain inn, which was a winter, he learned, occupied only by two men. These men, prisoned in a waste of snow and ice, had for all that period no communication with the world below. Here was a situation for a novelist. And the novelist accordingly began to let his imagination play about the possibilities of tragedy surrounding the two men on their mountain height. But the story was never written, for, happening to come upon a volume of Guy de Maupassant, with a new to him, he found therein, under the title of "L'Auberge," the very story he had meant to write.

The Herons of Andalusia.

Of all the birds he had studied, said W. Farren in a lecture, none showed conjugal affection in quite the same way as the brown backed herons of Andalusia, in Spain. Whenever the husband relieved his wife at the nest he invariably laid his neck over hers in momentary embrace and then took up his position while the other bird flew away. The herons never omitted this affectionate salutation.—London Standard.

Cause and Effect.

"What a concealed little bump Biggleton is!" said Hawkes. "I wonder he ever gets a glimpse of himself in a glass."

"I guess that's the trouble," said Jinks. "He probably uses a magnifying glass."—Harper's.

Not at Home.

Caller—Is your father at home? Little Daughter—What is your name please? Caller—Just tell him it is his old friend Bill. Little Daughter—Then I guess he ain't at home. I heard him tell mamma if any bill came he wasn't at home.

Horrors of Sing Sing.

Stories of torture of prisoners in the middle ages read like descriptions of luxuries in comparison with the tales that have been told by Sing Sing prisoners to Geo. W. Blake, special commissioner appointed by Gov. Sulzer to probe prison affairs in New York State. The investigator describes conditions as "frightful." The prison cells, he says are dark, small, damp, filthy and infested with vermin. Into none of the cells in the lower tier has a ray of sunshine penetrated in 80 years. The worst feature of prison management, Mr. Blake's report recites cannot be described in a public document.

In placing blame for conditions in Sing Sing, Mr. Blake declares that Col. Scott, former Superintendent of New York prisoners, is responsible, and that John S. Kennedy, warden of Sing Sing, together with several other men in charge, are not only incompetent, but are wasteful and eager for graft.

PRISONERS LIVE IN FILTH

The low thief, stricken with disease, with no mental capacity and with the lowest possible instincts, is often locked in a cell with a man of some education, of some ideals and of clean personal habits, according to the Blake report. The ground in some of the cells drips with moisture so that the inmates hang sheets and blankets on the walls to protect themselves. In many cases they contract rheumatism and go out crippled for life.

Dust and germs are swept down the prison from tier to tier so that when the men retire at night their pillows are covered with dirt. Life in these cells, the prisoners declare, is torture enough when they are occupied only at night, but on Sundays and holidays the men are locked up from 18 to 19 hours.

GRAFT IS EVIDENT IN PRISON

Mr. Blake states that prisoners with money or political influence are given better cells, but that money is extorted from them frequently. This is only one of the sources of graft detected. The management of the industrial department is inefficient. Men purchase manufactured goods on competitive bids, but there always is a snake in the contract that places the orders with favored firms.

In the commissary department Mr. Blake found as much as 500 to 650 pounds of waste after each meal. A little care brought it down to 200 pounds. A lot of 1,600 pounds of potatoes weighed 1,100 pounds after they were pared. Fresh meat is purchased for the prison, but poor meat is served the prisoners, and so through the entire prison management Mr. Blake declares the chain of graft runs, even to the sale of the garbage.

Most Prompt and Effective Cure for Bad Colds.

When you have a bad cold you want a remedy that will not only give relief, but effect a prompt and permanent cure, a remedy that is pleasant to take, a remedy that contains nothing injurious. Chamberlain's Cough Remedy meets all these requirements. It acts on nature's plan, relieves the lungs, aids expectoration, opens the secretions and restores the system to a healthy condition. This remedy has a world wide sale and use, and can always be depended upon. Sold by Paul Drug Co.

Care of Curtains.

With spring cleaning comes the necessity of caring for the curtains and draperies that have done service through the winter months, and must be made ready to store away until they are needed again in the fall. All draperies should be thoroughly cleaned before being put away for the summer, for dirt and dust will rot even the strongest material if allowed to remain in it for any length of time.

There are several easy ways to clean the most delicate curtains, but the most satisfactory way to wash white ones is to place them in a bag made of cheese cloth or mosquito netting. Let them soak in warm sudsy water made with a pure white soap for about 30 minutes; apply more soap and rub the bag and its contents gently through the hands. Rinse in clear warm water, and again in cold water to which a little bluing and a thin boiled starch has been added. Squeeze the water out with your hands; do not wring.

Lacking a certain frame, lay clean sheet on the floor and stretch the curtains on it, pinning them at frequent intervals along the edge, taking care to pull the lace edge, if they have one, out smooth and pin it securely to the sheet. When they are dry the will look like new.

Ecru curtains should be cleaned by placing them in a cheese-cloth bag with several quarts of corn meal dampened with gasoline. The whole is rubbed and kneaded together for about 15 minutes and left covered in a safe place away from a lighted lamp or open fire, for 24 hours. Shake out all the meal, hang on the line out of doors until the odor has disappeared and press with a warm iron. Colored madras curtains may always be cleaned by this process.

Fold the curtains evenly, placing a sheet of tissue paper between each set and put them in a long flat box or bureau drawer until they are needed again.

Heavy draperies should be hung on the line on a windy day and beaten as you would a carpet, but not so hard. When the loose dust is out, they can be laid on the grass and the spots removed by scrubbing them with gasoline to which a small quantity of soap powder has been added. If they are badly soiled, wash them in gasoline and soap powder, rinse in clear gasoline and dry in the open air.

When using gasoline for cleaning purposes, always work in the open air and be careful not to rub too hard, thus producing friction that might possibly cause an explosion.

Sprinkle powdered camphor balls between the folds of heavy draperies when packing them away for the summer and wrap them in newspaper to avoid any danger of moths. It is said that lavender is an effective preventive of the destructive moth. If this is used it will impart to your draperies a delightful perfume that will prove very pleasing when they are called into service once more.

Corn planting is over in this section and the farmers are all glad of the rains.

J. A. English, of Columbia, was here one day last week buying sheep and tobacco.

The epidemic of whooping cough in this section continues to grow and it now looks like no one how has not had this disease will escape.

J. G. Stotts is very sick at this writing with mumps and fever.

Bud Kearns, Fairplay, visited here one day last week.

Mose Wooten and family visited relatives at Bliss several days last week.

This seems to have been one of the best fishing season for a number of years, and there has been more fish caught in Harrodsfork than for many years.

Robert English, candidate for the Democratic nomination for Jailor, was shaking hands with our people one day last week.

Helena, the little daughter of Mr. and Mrs. Arthur Royse, who was severely bitten by the family dog one day last week, is improving and it is hoped that she will soon recover.

A fair illustration of the fact that it is supply and demand that rules the prices of farm products may be gathered from the Irish potato crop of this section last year and the year before. Two years ago the potato crop in this section was almost a failure, and as a result they sold on this market for \$2.50 per bushel. Recently they have sold on this market for 25 cents per bushel and some fed to hogs on account of no demand for them.

Knowing that Judge Carter would do business in Columbia this week several of the boys have been on the lookout for Mike who would invite them up to transact business with the Judge while they have the opportunity.

Symbolic Fountain Head.

Did you ever stop to think why a lion's head should be chosen in preference to any other design for drinking fountains? You will see these heads with the water gushing out of the mouth, in public parks, buildings and in many places where fountains are provided both for man and beast.

The reason for the use of the lion head for this purpose has been traced back to the ancient Egyptians who always celebrated the rising of the waters in the Nile river as one of the most important events of the year. As the waters flooded the low lands each side of its banks, fertilizing the earth and causing the crops to grow, it meant life and prosperity to the entire nation.

Now, the rising of the waters always took place when the sun was in the constellation of Leo, the lion. Consequently the Egyptians adopted the lion as the symbol for life giving waters and all their fountains were carved with a lion's head. Later the Greeks and Romans copied the symbol and so it has come down to us.

WED. MAY 28, 1913.

A few years ago when Russia and Japan were warring over the property of other people the overwhelming sentiment of Americans gave wonderful impetus to the success of Japan. It was hard to find a sympathizer for Russia in this section and judging from published reports such conditions prevailed throughout the country. The victory of Japan was largely due to the support given by the people of this country and their victories as announced were received with hearty approval. Then as now we never took stock in their victories, their purposes or ambitions and believed, without a doubt, that the time was in the near future when their greed of power, and extension of commerce would give our country serious trouble. Spurred on to greater attainments through triumph over Russia, fired with an avarice commensurate with their greed for power and prestige, we are now confronted with their protest over the Alien land bill just passed by the Legislature of California. It will be remembered that Mr. Roosevelt plead with California to keep within the demands of Japan while he was President, it will also be recalled to mind that Mr. Taft likewise sought to live within the desire of the same people and now President Wilson seeks to keep peace with them by asking the sovereign people of our western coast to stay legislation they deem essential to the welfare of the State. It appears that "the plucky little Japs," as they were once denominated by their numerous sympathizers, have become the aggressive little Japs that now seek to dictate to this country and to give us serious trouble if we fail to yield. So far as we are able to see the real situation California is clearly within her rights and for self preservation must pursue the course marked out. It may bring trouble between this Government and Japan, but it seems that the time has come when foreign dictation is no longer to thwart the will and best interest of our western coast states where present conditions and tendencies force those people to protect posterity against the encroachments of undesirable orientals who are fast menacing the peace and happiness of that section. Governor Johnson, in a concise statement, presents his reasons for signing the bill and it is strong to the superlative degree. Gov. Johnson shows clearly that he does not desire to precipitate trouble between this government and Japan, but he also shows that he will not bow to the dictates of Japan. His position can not fail to meet the hearty approval of all who believe in protecting the people of this country against undesirable foreigners.

Gov. McCreary, the only Confederate vete. an. now holding the office of Governor in any State, will speak at the Confederate reunion, Chattanooga, Tenn., today.

Whitley City lost out in the fight for the county seat of McCreary county. Another election will be held in November, at which time the voters will say whether they are for Pine Knot or Whitley City.

Judge L. W. Bethurum, of Rockcastle county, is now being pushed to succeed Caleb Powers in the next Congress. Bethurum is a brother of Circuit Judge Bethurum, and is said to be a gentleman of ability and standing.

The Interior-Journal's write up of Stanford and Lincoln county is a credit to the publication, showing the enterprising spirit of its editor. Many pictures of prominent men, public and private buildings appeared, and the paper is a thing of beauty, and should be preserved by Lincoln county people. Mr. Sausley is a newspaper man of long experience, and when he undertakes to please he pleases.

Rev. J. M. Goodin, pastor of Mt. Vernon church, delivered a very interesting sermon the 3rd Saturday evening and Rev. Granvil Lawless, of Wataugo, Ky., preached on Sunday following.

Dr. Aaron, of Clinton county, was calling on his brother, J. K. P. Aaron, one day last week.

Prof. A. H. Ballard, of Columbia, was transacting business in this community last week.

Miss Idell Sims is spending this week with Mrs. Sampson Antle, at Montpelier.

Recently on a bright Saturday afternoon, while on our way from church, we had the pleasure of stopping for a brief period with "uncle" Todd Helm and wife. We found the old lady, whose hair is frosted over with the cares of many winters, sitting in her cool, shady porch, reading some sacred books. After passing a few thoughts as to how all were getting along, we repaired to the living room where with her roller organ she rendered some of the most beautiful airs that ever met the listener's ears. The time was very much enjoyed.

Mr. E. M. Gaines and daughter, Miss Callie, of this place, and Miss Laura Moore, of Jamestown, visited Mrs. McClure, of near Albany, last week.

"Pittsburgh Perfect" Fence

CONSIDER SIZE OF WIRE When Buying Fence
DON'T BE FOOLED by Weight per Rod or Roll

There's no "bunkum" about weight per roll when you buy "Pittsburgh Perfect" because it is constructed without using extra wire to make the fence joints. The extra weight of the joints in all wrapped, clamped, twisted or tied fences supplies no extra strength, but actually weakens these fences by persistently dragging down the

panels wearing them out before their time and making you buy more before you should. "Pittsburgh Perfect," the only fence with Electrically Welded Joints, is a one-piece fabric of unequalled strength, durability and economy. Because we eliminate the expense of extra wire and put this money into extra quality.

Made in Different Styles for FIELD, FARM, RANCH, LAWN, CHICKEN, POULTRY and RABBIT YARD and GARDEN

Every Rod Guaranteed

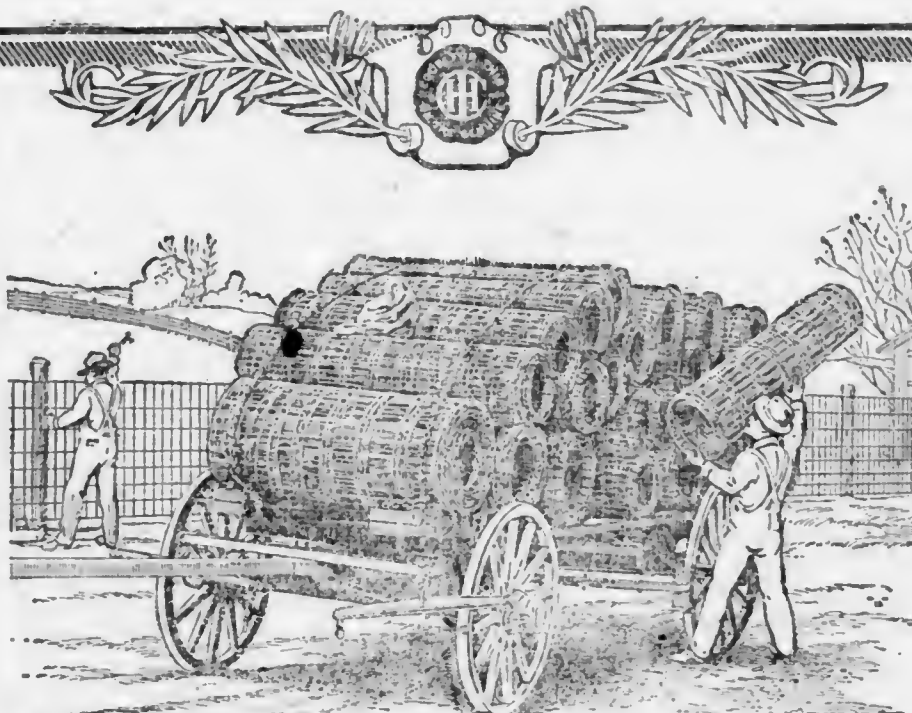

Ask your dealer for "Pittsburgh Perfect" and insist on his furnishing it. Do not allow him to persuade you that some other fence is just as good. If he doesn't sell it, write us direct.

IHC Quality Shows in Service

I could sell wagons for less money, but we don't care to sell that kind of wagon. We want every order you give for a wagon. We can't be sure of getting those orders unless the first IHC wagon you buy proves so satisfactory that you would not think of buying any other. We have to tell you how good our wagons are to get your first order. After that, we expect the wagon itself to do the selling. IHC wagons

Weber New Bettendorf Columbus Steel King

are made of selected, high-grade material throughout. The lumber is air-dried in huge sheds for three years or more before it is used. Air-drying takes years of time, and leaves the fibres of the wood filled with and cemented together by the natural resinous residue of the sap. Kiln-drying requires only a few days' time and leaves the wood brittle and weak. Air-drying produces elastic lumber, wagon parts that bend and give under loads and strains, but that spring back when the strain is removed.

Weber and Columbus wagons have wood gears; New Bettendorf and Steel King have steel gears. Our nearest office will furnish you with full information about any IHC wagon.

It is just some more Democrats at Allen Aaron's and Estes Hays' this week.

Mrs. Em Bradley of Columbia, is here at her farm, superintending the work on her dwelling house. Bill Cook has the contract to build the house for aunt Eth.

I am just in from Creelsboro I went to see my old comrade, Abe Garner, who is in very bad health. I also spent a night with J. Q. Mann, and dinner with my old friend Jess Goodman. I was glad to see the boys at the burg one more time.

We have had a great rain this week, which will help the growing crops so much.

Frank Blakey's wife gets no better. Bill Price is very far back this week.

Henry Barnett and wife, of Barnett's Creek, near Pellyton, were here this week on a visit.

Brother Granville Lawless preached a great sermon at the Mt. Vernon church near here last Sunday. The Baptists have got new life at that place—got a good Sunday School, a new organ, Miss Polly Belk to play for them. Brother Gooden is their pastor.

If I put any more in this time the candidates wont have room. I don't want to crowd them out.

What's The Matter With Your Baby?

The young mother—and many an old one, too—is often puzzled to know the cause of her child's ill nature. The loudness of its crying does not necessarily indicate the seriousness of its trouble. It may have nothing more the matter with it than a headache or a feeling of general dullness. It cannot, of course, describe its feelings, but as a preliminary measure you are safe in trying a mild laxative.

Nine times out of ten, you will find it is all the child needs, for its restlessness and nervousness are perhaps due to obstruction of the bowels, and once that has been remedied the headache, the sluggishness and the many other evidences of constipation and indigestion will quickly disappear.

Don't give the little one salts, cathartic pills or nasty waters, for these will act as purgatives, and they are too strong for a child. In the families of

Mrs. M. S. Adams, Auburn, Ky., and Mrs. L. M. Boyce, Tip Top, Ky., the only laxative given is Dr. Caldwell's Syrup Pepsin. It has been found to answer most perfectly all the purposes of a laxative, and its very mildness and freedom from gripping recommend it especially for the use of children, women, and old folks generally—people who need a gentle bowel stimulant. Thousands of American families have been enthusiastic about it for more than a quarter of a century.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar, a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

Fish Without Mouth.

It seems strange that a fish can live and thrive without a mouth. J. W. Fehlmann describes this apparent simplification of life on the port of a carp four years of age. Its mouth was absolutely shut. Yet there were numerous mayfly larvae, crustaceans, pieces of plants and the like in the food canal, says Prof. J. Arthur Thomson in Knowledge. The animal must have not only breathed but fed through its gill-clefts.

When Giving Money.

If you are sending money as a gift, a clever way to arrange it is to fold the bill in such a way that only the portrait upon it will show. Then place it in a little frame such as can be had at any general store, or make the frame yourself by cutting an oval or a square in the blank side of an envelope and decorate the envelope with a spray of flowers done in water colors, or some conventional design in gilt paint.

Pack the "valuable" picture in a pretty pasteboard box, tie it with a bright colored ribbon and label it "A Portrait of Grant," or whosever picture is on the bill. The donor of such a gift will receive as much pleasure from it as the person to whom the money is given.

I keep on hands a full stock of coffins and caskets, also robes; hearses. Prompt service night or day. Phone 29. 45-1 yr Ad.

BIRTH OF COLONEL BOGY.

Origin of the Term That Has Become a Part of Golf.

"Who is Colonel Bogey?" That is the first question usually asked by the recruit when he steps on the golf links. Professionals and veterans never tire of explaining that he is the imaginary opponent, with the fixed score for each hole, but few can tell how the name originated.

It generally is accepted that an Englishman was first to set forth the idea. In December, 1890, the scratch score of the Coventry course was taken, being the score that a good scratch player would take to each hole of the grounds, making no mistakes, but also faking nothing nor being fortunate with any special flashes of brilliant play.

At the time they called this "the ground score," and later several tournaments were given under the system. The name, however, followed soon, and its origin was a curious one. Dr. Thomas Browne, R. N., went out to play against a friend, Major Charles A. Wellman, and they agreed instead of playing directly against each other to play against the ground score and decide their match accordingly as each fared in this way. It so happened that about the same time the bogey song was being sung by the late E. J. Lonnen at the London Gaiety theater, and everybody else was singing it. The words of the refrain were:

Hush! Hush! Hush!

Here comes the bogey man!

So hide your head beneath the clothes

He'll catch you if he can.

There was the idea in golf. "He'll catch you if he can!" And it flashed across the mind of Major Wellman when he was playing this game and was getting "caught" by the ground score. "Why," said he to his friend Browne, "this player of yours is a regular 'bogey' man." A considerable piece of golf history was made in that chance remark, for "bogey" was from that moment established in golf. Some time later "colonel" was added.—Exchange.

A WALRUS ON LAND.

The Awkward and Bulky Creature is Almost Helpless.

As might be expected, a walrus is about as helpless on land as a canoe boat. It is with no little difficulty and much hitching and floundering that it drags his huge bulk upon a sandy shore, even with the boosting he gets from behind by the breakers as they roll in and dash against him.

His hind flippers are of little use on land, and on sand or pebbles, where his front flippers do not hold well, the labor of floundering forward is so great that he never strays beyond the edge of the water and usually lies with his body half awash, with the salt spray dashing over him like torrents of rain. On solid rock or ice he gets along much better, and often a herd will spread several rods back from the water's edge.

The females and younger walruses have far less development of neck to incumber them and therefore enjoy more freedom of motion than the old males, who actually seem a great burden to themselves. These creatures are strictly social in their habits and always go in herds, whether traveling, feeding, fighting or resting ashore. In the days before the slaughter of all living creatures became a ruling passion in the breast of man the Pacific species inhabited the whole of Bering sea and strait in herds which often contained thousands and even tens of thousands of individuals.

Gave Himself Away.

A man who is steadily employed finally had a day off and decided to go fishing, taking his luncheon with him. When he reached the creek he discovered that he had dropped the lunch packet somewhere on the road and hastened back to look for it. Presently he met a husky negro, who was looking happy and picking his teeth.

"Did you find anything on the road as you came along?" asked the gentleman.

"No, sah," answered the negro. "I didn't find nothing. Couldn't a dog have found it and eat it up?"—Everybody's.

Cleopatra's Pearl.

Most persons know the story that is told of Cleopatra to illustrate her luxurious habits of living—that she dissolved in her wine a precious pearl. No one seems yet to have questioned what must have been the effect upon the drink, but scientists scoff at the possibility of such solution. The fact is pearls are not soluble in wine. The most powerful vinegar affects them slowly and never entirely dissolves them, for the organic matter remains behind in the shape of a spongy mass that is larger than the original pearl.—New York Press.

Willing to Help Him.

"It would make me glad and give me courage perhaps to—to say some thing that I—I—er—"

"There! Please hold both of my hands."—Chicago Record-Herald.

Electric Bitters

Made A New Man Of Him.

"I was suffering from pain in my stomach, head and back," writes H. T. Alston, Raleigh, N. C. "and my liver and kidneys did not work right, but four bottles of Electric Bitters made me feel like a new man." PRICE 50 CTS. AT ALL DRUG STORES.

Don't Suffer!

"I had been troubled, a little, for nearly 7 years," writes Mrs. L. Fincher, in a letter from Peavy, Ala., "but I was not taken down, until March, when I went to bed and had to have a doctor. He did all he could for me, but I got no better. I hurt all over, and I could not rest. At last, I tried Cardui, and soon I began to improve. Now I am in very good health, and able to do all my housework."

TAKE CARDUI The Woman's Tonic

You may wonder why Cardui is so successful, after other remedies have failed. The answer is that Cardui is successful, because it is composed of scientific ingredients, that act curatively on the womanly system. It is a medicine for women, and for women only. It builds, strengthens, and restores weak and ailing women, to health and happiness.

If you suffer like Mrs. Fincher did, take Cardui. It will surely do for you, what it did for her. At all druggists.

Foxes and Minks.

It is estimated that 1,500 foxes have been shot and trapped for their hides in Somerset county, Tenn., this season. The fur dealers claim that the foxes and minks have never been so plentiful. The fox skins have brought more money per skin than in several years back. It is estimated that the hunters have realized from fox skins alone in the county nearly \$15,000. One man alone in the county caught in two days' time a black fox and a gray one that brought him a check for \$2,500. This is getting to be one of the greatest industries and many farmers are making as much money hunting as they can earn on the farm during the rest of the season. Many earned enough money from catching foxes and skunks to pay the mortgages on their farm.—Farmers' Home Journal.

Wolves Attack Father.

A Russian peasant named Grusneijoff, accompanied by his wife and four-year-old child, was traveling by sleigh near Volchuni when attacked by a pack of wolves. The woman, in her terror suggested that he appease the famished beasts by flinging them the child. This, however, the man at first refused to do, urging his horses onward at top speed.

At length the wolves gained the sleigh and Grusneijoff flung the child into the road. His sacrifice was in vain, for the wolves, disregarding the living bundle, flew to the attack with renewed fury and at length dragged the peasant out. When the horses arrived in town the woman was found lying unconscious in the sleigh. The child, who had not suffered the slightest injury, was found lying peacefully sleeping on the road. The man had been killed and almost devoured.

Rioters Shot down.

Two men were seriously wounded, seven others shot and 15 less seriously hurt in street battles when policeman in Syracuse, N. Y., sought to force workmen from the front of the Cathedral of the Immaculate Conception, in the heart of the city. Some of the number were fatally injured, while most of the others suffered only slight

wounds. Nine policemen were cut and beaten in the fight which occurred throughout the city before Cesare Sconfetti, Italian consul at Rochester, arrived in Syracuse and called upon the foreigners to desist from violence.

The strike started last week when 2,500 laborers and hod-carriers demanded an increase in wages. Their demands were rejected. The strikers, mostly foreigners, paraded the streets and caused trouble until the police were sent against them.

In the first encounter the policemen were treated to a shower of bricks and stones. They fired into the air to frighten the men. Then they fired among the strikers and many fell. After the first encounter they were ordered to shoot to kill if they were compelled to shoot at all.

Consul Sconfetti hopes to bring about a settlement by arbitration. State troops were ordered to Syracuse, but arrived after the consul and had nothing to do.

Defies Divorce.

When the court at Warran, O., gave Orrin D. Hahn, a divorce, his wife refused to abide by the judge's decision.

She sobbed out her story when brought before Probate Judge Anderson for contempt of court. It was a story of their belief in the sanctity of marriage vows, despite hardships, poverty and nearly starvation. Court officers regard her tale of her pitiful existence and the patience with which she bore her lot as a living rebuke to the divorce laws.

Hahn married her from a luxurious home and parents who lavished on her all that wealth could buy. Against their will she became the bride of Hahn, who soon tired of her and for several years has been trying to rid himself of her. Finally her husband divorced her, but she refused to leave him.

The sheriff found Mrs. Hahn in a shack with Hahn, a boy of 17 and a girl of 15. The roof was made of tin cans. There was nothing in the shanty but a bed, a stand and a stove. Little food was in the place.

COUNTRY CHILD'S DAY NOW IS HERE

Parents and Teachers Prepare For Newer Life.

ERECT MODERN SCHOOLS.

Up to Date Building and Equipment Mean Added Interest to Both Teachers and Scholars in Educational Matters—A Model School Near Louisville With Domestic Science Room.

Wherever people are thinking definitely about the future they realize that the child is the greatest problem with which the state has to deal because it is the state's greatest asset. This is especially true in the rural districts, and both teachers and parents are getting ready for the newer life that promises to develop within the next twenty-five years or sooner.

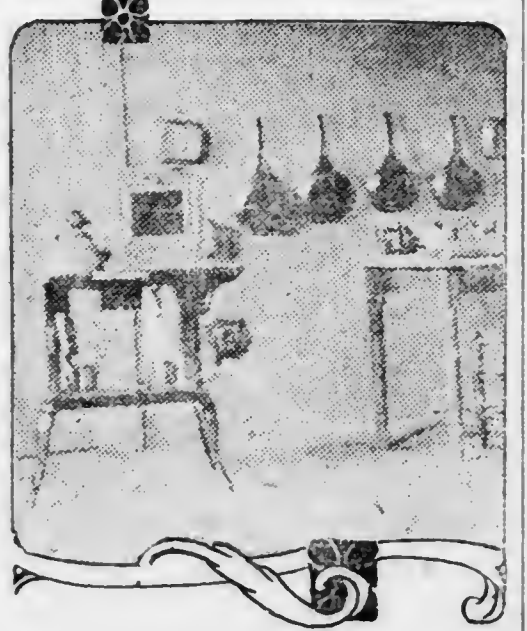

Four miles out of Louisville on one of the main turnpikes, where for years

THE SCHOOL, DISTRICT 51, JEFFERSON COUNTY.

the people had been thoroughly satisfied with a poor schoolhouse and a poorer playground, a new building has gone up. This building was made possible by the district levying a special fifteen cent tax for two years and securing the help of the county board of education. When the public began to understand what was taking place it rallied to the support of the new school. This was made very plain when the Southern Brick and Tile company, which had a large plant in the neighborhood, added an extra acre of ground to the acre already secured by the trustee for the district.

The moment one enters the beautiful brick building with its soft green roof that harmonizes with the surroundings it is evident that it is an up to date school with a modern school equipment, for a sanitary drinking fountain is the first thing that catches the eye. The building has two beautiful schoolrooms perfectly lighted and equipped with modern single desks. Two ample cloakrooms are immediately in front of the classrooms and open into the main hall, while at one end of the building there is a cozy rest room for teachers and pupils, with a light, pleasant little library. Both of the classrooms are arranged so that they may be turned into one huge room, while the teachers' platform can be joined and become a stage with the library and rest room as dressing rooms for the same. This simple

DOMESTIC SCIENCE ROOM.

device makes it possible to use the school for entertainments and as a perfect social center for the community.

Down in the big, airy basement is the modern heating plant, a gasoline engine and tank that supplies the water for the building. In this same basement there are two big rooms, one of which is equipped with twelve work benches for the manual training class. The other room of the basement is equipped to handle a class of eight girls in domestic science.

It might seem in looking over this school, with its perfect equipment and its splendid grounds, its huge cistern and its deep well, to furnish perfect drinking water for the children, as if the cost would have been excessive. Yet the whole equipment, including gasoline engine, domestic science outfit, manual training benches and tools, cost only \$5,750.

There is one final point that should be touched and touched upon definitely, and that is the effect of this building and equipment upon the two teachers. Last season when they realized that this dream was to come true they both went to a summer school, one taking a summer course in domestic science, the other in manual training.

CHAT OVERHEARD AT LOCAL STORE

Two Men Discuss the Present Schoolbook Law.

BOTH AGREE IT IS UNJUST.

To Have the County Authorities Select the Children's Schoolbooks Often Means a Hardship For the Parents and a Loss of Valuable Time to the Pupil.

"Say, Bill, somebody told me the county is to select the children's schoolbooks for next year."

"Yep, that's what the fellows round the courthouse say. It's a new law again."

"No; I reckon they've gone back to the one we had a good while ago. Well, all I can say is I'm mighty sorry."

"Why? Don't you think our folks can select good schoolbooks?"

"Course they can, but that ain't the point I'm drivin' at. Look here, you're leasin' a farm same as I am, ain't you?"

"Well, suppose you buy your boy an' girl a set of books for school next fall, an' then 'bout the Christmas holidays you go over into the Big Bull Skin neighborhood just across the county line."

"By George, I hadn't thought about that side of the question!"

"Course you didn't, 'cause your kids are just little fellers, an' they ain't been to school long. But you wait until you have a whole raft of 'em, like I've got, an' then you'll understand what a big thing it can be. I remember mighty well one time when I moved from one county into another. The move wasn't more than five miles either, an' the new books I had to buy for my four children cost me \$9."

"That's mighty tough, an' I don't wonder you're kickin' about it."

"If the cost of the books was all of it it wouldn't be so bad. I've got a heap bigger kick comin' than just the cost of the books."

"What is it?"

"What hurts me is that sometimes a child'll lose a lot of valuable time. There's my oldest boy. He's goin' on sixteen, an' he's through the eighth grade an' ready for the high school. He'd been through almost two years of high school work if he hadn't lost time changin' from one school to another."

The man was silent for a moment before he continued sadly: "The boy's big for his age, an' now he's goin' to work because he feels he is too big an' old to go through high school. The changin' round means that my boy won't take a high school education like he planned to. Just the other day I saw in a paper where the average pay for the man who had only gone through the eight grades was almost \$400 less than that of the feller who had had a high school course. If that's so my boy'll stand to lose almost \$8,000 in hard money in the next twenty years of his life. He'll lose enough through the changes in his school to buy him a first class farm."

The men were silent again for a few moments. At length one spoke up. "Kinder strange how all of us fellers talk an' plan how things ought to be run at Washington," he said. "We talk of who should be president an' all that. An' we won't take the trouble to try to straighten out a schoolbook law in Kentucky that means money out of our pockets every time we move an' money out of our children's pockets for the rest of their natural lives."

"Say, let's all agree to watch the schools just a little bit, an' let's get busy with our next legislature an' see if we fellers that stand between the plow handles an' feed folks can't have things fixed to suit our pocketbooks an' to make it better for our children."

The New Schoolbook Law.

A strong effort is expected to be made at the next session of the general assembly to amend the textbook law, possibly restoring the system of state selection. The present law provides that each county shall choose its own textbooks through a commission composed of a member of the county board, a member of the board of examiners and a county school principal. The old contract will expire next year, and as no selections have ever been made by county commissions those in favor of state selections are desirous of securing legislative action restoring it before the county commissions have a chance to act. Under the old state system the county judges, county superintendents and county attorneys voted on the textbooks and a majority ruled. Some form of legislation will be considered by the Kentucky Educational association at its meeting in Louisville, April 30; and probably a draft of the measure favored by a majority will be prepared for submission to the general assembly.—Editorial Pineville Sun.

Women Fight in Church.

Members of the congregation of the Methodist Church at Bradley Beach, N. J., are much upset by a fight between two women, members of the church, which occurred at the cost of a morning service. One of the women, who was said to be jealous of her husband's attention to the other, struck her in the face with her fist.

There was great excitement in the church, and those who saw the trouble said that the husband of the woman who was attacked made no effort to protect her. The husband of the woman who started the fight was said to have led her, struggling, from the church. The trustees have started an investigation of the affairs.

Health a Factor in Success.

The largest factor contributing to a man's success is undoubtedly health. It has been observed that a man is seldom sick when his bowels are regular—he is never well when they are constipated. For constipation you will find nothing quite so good as Chamberlain's Tablets. They not only move the bowels but improve the appetite and strengthen the digestion. They are sold by Paul Drug Co. Ad.

A Century of Peace.

The United States and Great Britain have been at peace nearly 100 years, and it is proposed to celebrate this centenary in a fighting manner. The two nations are inviting all the nations of Europe to join in ceremonies that will commemorate the achievement, for achievement it is, the two nations having submitted to arbitration many questions that a century ago would have become cause for war. It is gratifying that Great Britain is taking as deep interest in this matter as is the United States, for the influence on other nations of such co-operation cannot be without beneficial effect.

During 100 years of peace between the United States and Great Britain there have been many wars between other nations, indeed, both nations have engaged in wars with other countries, the United States with Mexico in 1848 and with Spain in 1897, while Great Britain's armies have invaded nations in Europe, Asia and Africa. Yet it is significant that the wars waged by both nations were in the interests of civilization and humanity, purposes amply justifying recourse to arms. Such fighting for humanity will but add to the gratification incident to peace between the two nations themselves.

Rheumatism Quickly Cured.

"My sister's husband had an attack of rheumatism in his arm," writes a well-known resident of Newton, Iowa. "I gave him a bottle of Chamberlain's Liniment which he applied to his arm and on the next morning the rheumatism was gone." For chronic muscular rheumatism you will find nothing better than Chamberlain's Liniment. Sold by Paul Drug Co. Ad.

Now, a self-made woman may be as admirable as a self-made man, but one must draw the line at self-made widows.

Straphonger is a noun that has long been heard. Invent your own term for those who have to have to hang on to the seat back handle.

Cure for Stomach Disorders.

Disorders of the stomach may be avoided by the use of Chamberlain's Tablets. Many very remarkable cures have been effected by these tablets. Sold by Paul Drug Co. Ad.

Gradyville.

The weather has been cool for the past few days.

J. F. Pendleton, of Greensburg, was here Monday.

Mr. and Mrs. W. P. Flowers spent a few days in Columbia the first of the week.

Several acres of tobacco were set in this Community last week.

The wheat and oats crops are looking considerably better in this section in the last few days.

We had a fine rain last week and everybody is rejoicing over the fine prospects for a good crop.

Some of our farmers have put in their complaint about the scarcity of tobacco plants down this way.

Mr. W. B. Dulin, while in Columbia last Monday, his mare he was riding got loose from where he had her hitched and up to this time she has not been heard of.

Rev. John Crawford filled his regular appointment at Union last Sunday with a very interesting discourse, and we must say here that the Sunday School is moving along nicely with a good interest and good attendance.

We have had a siege of mumps and measles in this section for the past six months, and every child and old person that had not had them have suffered from the effects. We take it from this time on that this section will be measles and mumps proof.

Uncle Jacob Easter, of Red Lick, was in our midst last Friday and reported every thing in this section moving along nicely. He said they had a hail storm there a few weeks ago that did considerable damage to the wheat crop.

Please remember that on the 30th day of this month that there will be services at the Union cemetery by Rev. J. N. Crawford, of Columbia. Services at 11 o'clock. This day has long been set apart to decorate the graves where our loved ones are buried. Let us take notice of this and go to the cemetery before hand and prepare for the occasion as we know there is some work that should be done at once. We all know that it is our duty to do this and let us at once go and move all the shrubs and under growth from the city of the dead. Remember the time and place.

Mr. W. L. Fletcher, while visiting in Cumberland county last week, had the pleasure of meeting with Mr. L. C. Butler, formerly of Metcalfe county, who has been residing in Cumberland county for a number of years, and who informed Mr. Fletcher that he was a candidate to represent the people of Adair and Cumberland in the next Legislature of Kentucky. Mr. Butler is a true and tried Democrat and no doubt would represent the interest of the party.

Mr. Ed Whitlock, one of our best farmers, has transplanted about twelve acres of tobacco. He has something like six acres more to set.

Born, to the wife of J. W. Parson on the 23rd, a daughter. Mother and child getting along nicely.

Knifley.

The health of this section is very good at this time.

Corn planting is over and the farmers are preparing for a large tobacco crop.

Oats and grass are needing rain. No rain here for three weeks. Meadows and pastures are very good.

Mr. A. Hovious is preparing to build a residence on his farm bought of B. W. Tucker.

Mr. J. M. Wolford went to Frankfort, on business, last week. Jo Knifley, Columbia, spent a few days here last week.

Robt. Sharp and sister, of Asher, passed through here last week en route to Wilson's Creek.

Ross Spurling, of Mannsville, spent a few days with Mr. L. R. Chelf and family last week. Miss Hazel Chelf, his niece, accompanied him home.

Mr. W. B. Hovious went on the road last week for the Webster Drug Co., Memphis, Tenn.

Our new road law has failed to get in its work on our roads up to this time. Some places are almost impassible at this dry season, and some culveras are dangerous. It is like the old story that was in the Courier-Journal some years ago, "Better for Worse."

Messrs. Willis and Vaughan candidates for Jailer were shaking hands with the voters in this section last week.

Mr. A. Hovious of this place, was in Washington City last week on business.

W. I. Ingram, Columbia, was in our town a few days last week.

Mr. Alf Chandler will move his mill from this place to Russell county soon.

Born, to the wife of Virgil Knifley, a son. Mother and baby doing well.

Rev. Tobias Huffaker was shaking hands with the voters of this precinct last week.

"Uncle" Minitree Monday, who fell off his porch several weeks ago and was badly hurt, can walk about at this writing.

Mr. and Mrs. Beauchamp, of Ga., are visiting Mr. C. G. Jeffries and other relatives in this section for a few weeks.

Mr. Hutson Baxter sold to Jo Ferguson, his farm near this place, for \$775. Mr. Baxter is on the market for another farm.

Neatsburg.

The health of this community is good at this writing.

Several from here are attending court.

Miss Lora Beard, of Eunice, is spending a few days with her cousin, Miss Lela Beard, at this place.

Rev. Huffaker was in this community last Saturday night.

Mr. J. C. Breeding and wife were in Campbellsville last Saturday and Sunday.

Mr. Wallace Beard, who was called as one of the board of examiners, has returned home.

Several from this place attended church at Tabernacle last Saturday night and Sunday.

Mrs. I. G. Hardwick, Misses Lela and Lola Beard spent last Thursday with Mrs. Emma Breeding.

Miss Florence Bryant is spending several weeks with her cousins, Misses Vister Royse and Bonnie Pelley, near Columbia.
